1) From 1 January 2001, Greek data are included. Data coverage for euro area residents is estimated at around 95% of total issuance.

2) Including items expressed in the national denominations of the euro.

3) "Short-term" means securities with an original maturity of one year or less (in accordance with the ESA 95, in exceptional cases two years or less). Securities with a longer original maturity, or with optional maturity dates, the latest of which is more one year away, or with indefinite maturity dates, are classified as long-term.

4) All growth rates refer to the euro area including Greece. Rates of change are calculated from amounts outstanding and are not adjusted for revaluations, reclassifications or other changes which do not arise from transactions.
